

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

When the 18-year-olds received the right to vote on July 1 it is quite likely that a whole new world of legal problems will be coming to the surface soon. For instance, can an 18-year-old serve on a jury? Are they, or should they still be, considered minors until they are 21.

Vermont has already taken a step which the other states probably should take. They have lowered the age of manhood to 18. In that state an 18-year-old can enter into a legal contract. His parents are freed from the responsibility of supporting him when he reaches the age of 18. He can marry without parental consent and can claim many other public rights and responsibilities previously not reached until the age of 21.

All of these problems came to the surface when Ohio approved the constitutional amendment, thus becoming the 38th state to do so. It took the okay of legislatures in three fourths of the states. The ratification of the amendment granted the right for those persons to vote in all elections, whether local, state or federal.

Now that they can vote — what about all of the other privileges and responsibilities that come with the age of 21, should they be lowered to 18 too?

The first real question along this line that seems to come up is that of jury service. Under present state laws, anyone who is on the registered voter list is qualified to sit on a jury. Put at the same time there is a provision in the new jury law that you must take jurors from the county voter registration rolls but they must be 21 years old.

But if the 18-year-old is on the voting list can you exclude him? This is a question that county officials will have to wait for the Attorney General to decide. I noticed that in Deaf Smith County they are going to make up two lists for the present time — one with 18-year-olds and one without — and let the lawyers decide which list they want to use.

I suppose that if an 18-year-old student is called for jury duty the schools will have to give them an excused absence.

What a lot of people failed to realize when all the fuss started to lower the voting age was that 21 was not just an age someone had picked out of thin air and decided that that would be a good age to let people start voting. It was set at this age because a lot of other things happen at the age of 21.

Now the question will be should the age of maturity be lowered to 18 because of the right to vote at that age or should it be left at 21?

One interesting sidelight — since an 18-year-old cannot sign a contract they cannot own property and therefore do not pay taxes but can vote in a bond election.

As usual you cannot second guess the legislature. Since the new state sales tax is 5 percent I figured that any sale under a dime was not taxable and thought that our subscription price of \$5.00 going out of the area would not be taxed as it figures out a little less than 10 cents per copy. Now I find that the legislature wrote into the law that anything over nine cents would be taxed.

So our \$4.00 subscriptions in the area are tax free but we must charge 25 cents tax on the \$5.00 ones.

WEIGHT ROOM ACTIVITIES — Girls take turns doing various exercises on the weight machine at Hamlin High School during the summer recreation program conducted by Coach Deane Wright. Here the older girls supervise the younger girls in proper use of the equipment.

Over 70 Youngsters Taking Part In Recreational Program

Over 70 youngsters have signed up for the summer recreational program being conducted at the high school, according to Coach Deane Wright, director of the program.

Coach Wright said that there are 33 girls and 39 boys signed up for the month long program and the average attendance is about 65.

The youngsters are divided into groups, with group leaders, with each group taking part in various activities during half hour periods. The session runs from 9 a.m. until noon, Monday through Friday during the month of July.

Among the activities in the program are trampoline, basketball, volleyball, football, weights, ping pong, tennis, tumbling, wrestling and badminton. Coach Wright, who is working alone on the program with the help of some of the older youngsters, said that the biggest problem seems to be activities for the girls. He said that he would like to find someone that could teach twirling to the younger girls.

The program is a voluntary

one being conducted by Coach Wright with the school system furnishing the facilities.

Girls taking part in the program are: Gina Wright, Dee Dee Eaton and Elaine Wade, six-year-olds; Mindy Smith, Lisa Caffey, Cheryl Scifres, Leanne Wade and Judy Crouch, seven-year-olds; Leashia Eaton, eight; Jessica Hernandez, Diane Young, Jan Carl Jackson and Jodi Edmiston, nine-year-olds.

Rita Hernandez, Linda White, Leah Johnston, Diane Jay, Barbara Johnson, Audrey Hart and Jamie Jones, ten-year-olds; Cindy White, Alice Lujan, Rhonda Hart, Jan Ford, and Debi Cary, twelve-year-olds; Melissa Madden, thirteen; Cheryl Lewis and Debra St. Clair, fourteen-year-olds; and Cindy Witt, fifteen.

Boys in the program are: Greg Young, Curtis Jay and Calvin Stewart, six-year-olds; Van Hale and Joebob Carter,

seven-year-olds; Carl David Wade, Willie Johnson, Mike Davis, Mark Young, Steven Roth and Darrell Hart, eight-year-olds; Joe Dan Smith, Mark Caffey, Claud Scifres, and Russell Crowley, nine-year-olds; Jimmy Lujan, Carl Shearer, Lynn Davis, and Able Silva, ten-year-olds.

Nickey Bond, Wayne Wheat, Dean Hernandez, Lester Stewart, Greg Bessire and Marvin Williams, eleven-year-olds; Alan Steele, Edwin Wheat, Paul Reynolds, Jeffrey Witt, Allen Young, Patrick Harper and Ronald Crouch, twelve-year-olds; Ricky Bond, Rick Craig, and Randy Wright, thirteen-year-olds; Luke Reynolds, Ray Scifres, Dennis Gillespie, and Steve Evans, fourteen-year-olds.

Any other youngsters interested in taking part in the summer program are urged to be at the high school practice gymnasium at 9 a.m. to sign up.

Six Hamlin FFA Members To Receive State Awards

Six members of the Hamlin Future Farmers of America Chapter will be honored tonight at the State Convention of the Texas FFA Association. The convention is being held this week at the Sam Houston Coliseum in Houston. The awards will be presented to Davis Weaver, Mark Madden, Kenneth Payne, Carlos Gonzalez, Oscar Guerra, and Rodney Rackley during a special awards program.

Davis, the son of Mr. and Mrs. Irby Weaver and a student at Tarleton State College, will be recognized as the Star American Farmer from Area II and will receive the Crop Farming agricultural proficiency award on the state level. Davis has been active in FFA work for five years and farms 275 acres in cotton, milo, and wheat. He is an agricultural education major at college.

Mark, a 1971 Hamlin High School graduate and the son of Mr. and Mrs. Lewis Madden, is the state winner of the Agricultural Electrification proficiency award. Mark's work with electricity during high school earned him this award. He is also the first alternate for a \$1,000 college scholarship sponsored by the investor owned electric utilities of Texas.

Kenneth, an HHS junior and the son of Mr. and Mrs. Elbert Payne, will receive the Fish and Wildlife Management proficiency award.

These three Hamlin FFA members will now represent Texas in competition in the Southern Region. All their

awards are part of the National FFA Foundation Awards Program.

Area-Wide Crusade for Christ to Start Sunday

A city-wide prayer meeting and a door to door blitz by the youth of Hamlin tonight (Thursday) and other activities Saturday will be the final steps in preparation for the Hamlin Area Crusade to get underway Sunday evening.

Services will be held twice daily in the week-long "Crusade for Christ," with morning services at 10 in the high school cafeteria and evening services at 8 in the football stadium.

Evangelist Clifford Mayo of Lubbock, a widely known evangelist, will conduct the campaign. Working with him will be Paul J. Eby, who will direct the crusade choir, Jerry Anderson, pianist; and Miss Ann Mayo, who will play the bass violin and organ.

All young people interested in helping with the door to door blitz are to meet at 6 p.m. tonight (Thursday) for assignments and partners. The youth will conduct the door to door blitz of the city witnessing and visiting for the Crusade, says Rev. Harold Fleming, general Crusade chairman.

Saturday morning, July 17, a blitz of the business section will be from 8:30 to 11. Also planned Saturday will be a Demonstration Drive for Christ. They will assemble at 12:30 p.m. at the corner of Southeast Ave. C and Tenth Street near the gin and at 1 p.m. will ride through out the city singing and advertising the area-wide Crusade.

The city-wide prayer meeting tonight will be held at 7:30 in the chapel of First Baptist Church.

Rev. Howard J. Jones, prayer chairman for the Crusade, said attendance at the prayer service is expected from all nine of the sponsoring churches and the meeting is open to the public.

Care for children to age four will be provided by the church, Rev. Jones said.

Evangelist Mayo has conducted campaigns over most of the United States, Mexico, Africa, Jordan, Israel and Guatemala. He has conducted many area-wide youth crusades with numerous denominations participating.

He is a graduate of Texas Tech and Texas and Asbury Theological Seminary in Wilmore, Ky. He completed one

year as a home missionary for Latin Americans and six years pastoring before entering the field of full-time evangelism.

Eby, of Nashville, Tenn., will be the director of the Crusade Choir. His wife will be working with him as organist.

Miss Mayo of Lubbock, daughter of the evangelist, formerly sang and played the bass with the Soul Searchers, a gospel choir team with a strong evangelistic emphasis.

Anderson, of Lubbock, also traveled with The Soul Sear-

chers. More recently, he traveled with The Gospel Team of Bethany Nazarene College, as their organist. He played with the Lubbock Symphony Orchestra while in high school.

A nursery for all children up to four years of age will be provided at the First Baptist Church during the Crusade services.

Evangelist Mayo will be bringing the morning messages for the First United Methodist Church July 18 and the First Baptist Church July 25.

Special Gospel Concert Planned Friday Evening

A special gospel concert featuring the Crosby Brothers of Goltwhaite and the Youth Choir of North Central Baptist Church will be held at 8 p.m. Friday in the high school cafeteria. The announcement of the concert was made by Joe Murff, a layman of the First United Methodist Church and Robert Bailey, music and youth director of North Central Baptist Church.

The Crosby brothers are the four oldest boys of a family of 10 children. They are Thomas, 16, David, 18, Timothy, 19, and Daniel, 15. These four boys have become, for many persons, symbols of that segment of the younger generation who have found the answer to life and happiness, Bailey said. Their answer, he continued, "and the only real answer to be found, is Jesus Christ himself."

Parents of the children, seven boys and three girls, are Rev. and Mrs. Russell Crosby. The quartet, although they have been appearing across the state with piano accompaniment are now appearing with their own guitar accompaniment or sing a cappella. They have a record out, released by Word Music Co.

The sponsors for the program are the North Central Baptist Church youth choir.

No admission is charged but a special offering will be taken to pay for expenses of the visiting group. The balance of the offering will go toward a mission trip planned by the Youth Choir to Old Mexico later this summer.

The public is cordially invited.

Members of the Youth choir are Debi Meyner, Debbie Hix, Frank Meyner, Melissa Madden, Larry Jayroe, Vanda Woolf, Tweety Starr, Danny Hix, Linda Walden, Stacy Brown, Yvonne Castle, Terry Neal, and Reba Carter of Rotan, pianist.

The Choir represents five Hamlin churches and is under the direction of Bailey.

TO APPEAR HERE FRIDAY NIGHT — The four oldest children of the Russell Crosby family will be presented here Friday evening in a special gospel concert at the Hamlin High School Cafeteria at 8 p.m. The quartet is pictured with a younger brother, Jonathan, left, and Woody Woodrome, pianist, (who will not accompany the group on this trip). The quartet includes, from left, Thomas, David, Timothy and Daniel. Also appearing on the program will be members of the North Central Baptist Church Youth Choir, under the direction of Robert Bailey.

FROM THE FILES . . .

FORTY FIVE YEARS AGO
(July 23, 1926)

The Herald would call your attention to the New City Ordinance regulating the parking of autos on the Main Street of Hamlin. It appears in this issue of the Herald and we call your attention to it that you may lene your approval and co-operation to put the regulations into successful effect.

The Herald has made complete arrangements to have the Texas Election Bureau send us the returns Saturday night. This service has been made possible by the united efforts of the business men of Hamlin. Hardly anyone refused to contribute towards this fund. They realize that hundreds of people from the surrounding country will want to hear the early returns and Hamlin could not disappoint them in this.

The board will likely be placed where it was two years ago by the telegraph office and this will make it about midway for all business houses.

The side street will be rexerved for standing room. Our information is that we will begin getting telegrams about seven o'clock and they will continue till nearly midnight. At that time we should know pretty well the standing of all State candidates. City Marshall Johnson has arranged that there will be no blocking of the Main Street by autos and will have a fair show to see and enjoy the fun.

Tuesday the oil well that has been digging for three or four months, hit the pay and flowed 32 barrels in 28 minutes. This well is just two miles from the Penick Dam and is just over theline in Shackleford county, and is three miles from Lueders. Information is that they have capped the well and are preparing for storage and the drillers estimate that the well will settle down to about 700 gallons.

TWENTY YEARS AGO
(July 13, 1951)

Semi-monthly gathering of the Jones County Singing Convention will be held Sunday afternoon at the Dovie Church, beginning at 2:00 o'clock in the afternoon.

Special numbers as well as the usual group singing will be featured at the meeting, according to Sam White of Stamford, secretary of the convention. The public is invited and encouraged to attend.

There was no shortage of water for Hamlin business institutions over a two-block radius Friday morning, except for the fact that it was running in the street rather than through the

mains.

A driver for the Combs Truck Line Houston, tried to cut too close a corner when emerging from the alley at the rear of the Hamlin Motor Company and the fire hydrant was knocked from its moorings. Water service to stores in that vicinity was stopped and the beauty shops and barbers shops halted operations right there.

Tempers flared at cancelled appointments and fountain service at the drug stores was continued only through use of an emergency container that was at hand.

The truck driver was assessed a ree to defray the cost of replacement of the hydrant and service was resumed later in the afternoon.

L. Bragdon, inspector for the United States post office department has been in Hamlin the early part of this week in the interests of his department. Bragdon is interviewing bidders relative to the leasing of larger quarters for the local office.

TEN YEARS AGO
(July 20, 1961)

An expanded Jones County Fair, including two new exhibit divisions, a queen and talent show contest and possibly a horse show, has been approved by directors.

Dates for the third annual event are August 25-26.

The contest to select a sweetheart of this year's fair will be staged on the fair grounds open to the entire county. Directors hope that at least one candidate will be nominated from each community.

As part of the entertainment provided fair goers this year, a home talent variety show will be included this year with cash awards offered the first, second and third place winners in two divisions. One division will be open to boys and girls and including teenagers; and the other to adults, including amateur radio and TV entertainers.

Livestock exhibits to be added, upon recommendation of the vocational agriculture teachers at a recent meeting, are breeding poultry and breeding rabbits.

It was announced this week that free diving instructions will be given at the swimming Pool Thursday night by Tommy Bond from 6 until 8 p.m.

This is the regular family night at the pool and Mrs. John Johnson, manager, states that everyone is invited to come and bring the whole family.

NEEDED — TIME FOR MEDITATION

Every working Mother and housewife will admit that there is never enough time — time for being the mother and wife she'd like to be, time for mending, time for planning well balanced meals. Certainly never enough time to meditate on God and His laws — to think on day by day happenings and consider whether or how they affect God's plan for her life.

One way for her to assure herself this time of needed meditation is to make it her habit to visit the church of her choice each Sunday. The quiet atmosphere of love and peace and prayer will restore a feeling of oneness with God and His plan, and give her strength for the work ahead.

"Be still and know that I am God". Psalms 46:10

"He restoreth my soul". Psalms 23:3

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Neinda Philosopher Has Some Advice
For New Crop of 18-Year-old Voters

Editor's note: The Neinda Philosopher on his Johnson Grass farm on Route One seems unalarmed over the new Amendment.

Dear Editor:

As everybody knows, the U.S. Constitution now says 18-year-olds can vote in any election in the country and newspaper columnist pointing out that most Presidential elections for example are won by very small majorities, sometimes by less

than a million votes, says the 11 million new young voters could swing the balance anyway they choose.

Another said the youngsters who, he claimed, aren't very interested in material things, will have a widespread effect in sweeping out the old-line politicians and established institutions and leading this country in a new direction.

"They have the balance of power and can turn this country around," he said.

I don't know about such things, 18-year-olds may not be any more effective in changing things than women did when they got the vote, but if they all do unite and come out swinging and vote as a blow and turn this country around, my advice to them is to keep quiet about it. Don't take too much credit for it out loud.

I mean, ten or fifteen years after they reorganize the country and look up from their job of trying to raise a family and pay their taxes and discover there's a new crop of 18-year-olds telling them they've made a botch of things and it's time to turn the country around again, it's going to be embarrassing if they can't put the blame on the generation ahead of them, mainly you and me.

If they're smart, they'll just turn the country around and not say anything about it. If they let it get in the newspapers, and 15 years from now the new crop digs through the back issues and puts the responsibility on them for the mess the country may be in, they'll wish they'd thought up some way to classify the papers as Top Secret. They need to be in a position to say "We didn't make this mess, we inherited it."

By the way, speaking of Classified Top Secrets, how did Attorney General Mitchell think he could suppress news articles in a whole string of newspapers when he got his hands full trying to suppress Martha? Yours faithfully, J.A.

Top Democrats cite the need for a strong united party effort, particularly for the November presidential campaign, convention nominations battles and the U.S. Senate race. That's why they are keeping a close eye on naming a successor to State Democratic Chairman Dr. Elmer C. Baum of Austin. Baum denied a published report he already had resigned but didn't rule out the possibility he may step aside soon. Two aides to the Governor have been working on selection of a replacement chairman.

New Brides Should Contact Social Security

A June bride's list of "things to do" should include changing her name on social security records, according to social security officials here.

When she changes her name, the new bride is keeping her social security earnings record accurate and up-to-date, a spokesman said. "Any earnings she had under social security before her marriage, as well as any earnings after her marriage, can then be correctly credited to the same record," he said.

"It's her earnings record that determines the amount of her cash benefits—and not just when she retires," the social security official said. "The disability and survivors programs also provide protection for the young bride and her growing family during her working years."

He said a new bride can change her name by calling, writing, or visiting any social security office. Or, she can get a form at any Post Office and many employer personnel offices.

Student Jobs Can Affect Social Security Checks

Earnings from summer jobs may affect monthly payments for student social security beneficiaries, according to social security officials here.

Over 4 million young people collect monthly social security benefits as children of retired, disabled, or deceased workers. Many of these young beneficiaries will spend the summer school vacation working, a social security spokesman said.

"The amount students earn can have an important effect on their benefits," he said. "If total earnings for the year—including part-time and summer work—are more than \$1,680, social security benefits are reduced. But student beneficiaries can receive full benefits for any month in which they do not earn more than \$140."

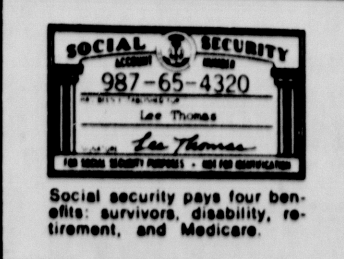

Student beneficiaries whose yearly earnings top \$1,680 will have \$1 of benefits withheld for every \$2 they earn from \$1,680 up to \$2,880. Above yearly earnings of \$2,880, \$1 in benefits is withheld for every \$1 earned.

The majority of student beneficiaries probably will

not earn over \$1,680 working only during the summer vacation, the spokesman said. "But a beneficiary's earnings could easily exceed \$1,680 if he also works part time throughout the school year."

If any student has a question about his earnings, he can call or visit his nearest social security office, the official said.

"If a student beneficiary definitely knows his earnings for this year will go over \$1,680, he should let us know as soon as possible. A year-end adjustment in social security benefits can sometimes create a financial hardship for a student," he noted.

Certification of Crop Acreage Nearly Completed for Jones County

ANSON — With the certification of crop acreage going full blast at the ASC office this past week Jones County farmers were surveying current and future prospects for the year with mixed degrees of hope and misgivings.

On the optimistic side at this mid-year point is the fact that the county's rainfall for the year is near normal, cotton is growing rapidly and early milo is only just the last few days started showing stress from summer heat and the need for additional moisture.

The misgivings and apprehension come from the fact that though the county is very fortunate as a result of the May and June rains that have put crops and ranges in much better condition than those in neighboring counties of this area, the year was started without underground moisture. Appearance of cutworms, careless worms, army worms, and some

weevils in some cotton fields is also causing worry.

Conditions vary, depending on the nature of the soil and land preparation but generally speaking early milo is at the critical stage and rain is badly needed as heads form and the maturing stage arrives.

Cotton on the other hand is not yet hurting for moisture, and except where insect damage is heavy should continue in good growing condition for one or two weeks, or until it starts fruiting heavily before it shows stress from a moisture shortage.

Pastures and grazing conditions remain mostly fair to good, but continued extreme hot weather like that of the past weekend will soon begin to take its toll.

Worm damage in cotton is being experienced in various parts of the county, but not considered too serious in most fields. The over winter weevil

threat is mostly in the south part of the county where some spraying is already being done. Most of the worm damage is in the younger cotton that was caught in the cycle of certain insect developments.

The ASC office reported last week that the crop certification requirement has been completed for approximately half of the farms, but the office will be busy until August 1 with the acreage certification of cotton, feed grain, peanuts, and set-aside-acres which must be completed for growers to qualify for farm program payments.

This year's rainfall in the Anson area, Jan. 1 through June is 14 inches compared with 12.1 in 1970 and 16.7 in 1969, according to County Agent Kirby Clayton's records.

The difference in this and the past two years is lack of underground moisture, Clayton said.

THE FAMILY LAWYER

Borderline Case

Preparing for summertime festivities, the Thompsons built a brick barbecue pit at the back end of their property. But neighbor Hanks took a dim view of the project. Checking the boundary line, he discovered that the bricks protruded several feet onto his land.

Mortified, the Thompsons offered to buy the strip of land for a fair price. But Hanks wasn't interested in money. Instead, he demanded that the structure itself be removed.

And when he carried his demand into court, the judge did order the bricks removed. The judge said Hanks could not be forced to sell a piece of his land, however small, that he chose to keep for himself.

This is the law's traditional view, when an object overlaps the boundary line onto a neighbor's property. Whether it is a barbecue pit or a gutter or a fence or a garage wall, the neighbor may usually insist an actual physical removal — rather than having to accept money as compensation.

However, removal can be costly indeed—a real hardship on the first party. In recent years, courts have shown a growing willingness to "weigh the equities" of the situation, refusing to order a removal that is plainly unjust. Take this case:

A farmer was haled into court on the ground that the wall of his garage extended exactly one inch into a neighbor's farm. The neighbor demanded destruction of the wall; the court said no.

Noting the slightness of the intrusion, the court said:

"The law does not bother with trifles."

What if the intrusion is not by mistake but on purpose? That tilts the scales sharply in favor of the neighbor. Almost always, the court will order outright removal, regardless of the hardship it may entail.

In one case, a boundary line between two lots was in open dispute between the owners. One owner, without waiting for the dispute to be settled, went ahead and built a house on what he thought was his own land.

As it turned out later, his house extended almost four feet into the adjacent lot. Here, a court ordered him to remove the house, despite the obvious hardship. The court said he could not complain of a predicament he walked into with his eyes open.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

When the 18-year-olds received the right to vote on July 1 it is quite likely that a whole new world of legal problems will be coming to the surface soon. For instance, can an 18-year-old serve on a jury? Are they, or should they still be, considered minors until they are 21.

Vermont has already taken a step which the other states probably should take. They have lowered the age of manhood to 18. In that state an 18-year-old can enter into a legal contract. His parents are freed from the responsibility of supporting him when he reaches the age of 18. He can marry without parental consent and can claim many other public rights and responsibilities previously not reached until the age of 21.

All of these problems came to the surface when Ohio approved the constitutional amendment, thus becoming the 38th state to do so. It took the okay of legislatures in three fourths of the states. The ratification of the amendment granted the right for those persons to vote in all elections, whether local, state or federal.

Now that they can vote — what about all of the other privileges and responsibilities that come with the age of 21, should they be lowered to 18 too?

The first real question along this line that seems to come up is that of jury service. Under present state laws, anyone who is on the registered voter list is qualified to sit on a jury. Put at the same time there is a provision in the new jury law that you must take jurors from the county voter registration rolls but they must be 21 years old.

But if the 18-year-old is on the voting list can you exclude him? This is a question that county officials will have to wait for the Attorney General to decide. I noticed that in Deaf Smith County they are going to make up two lists for the present time — one with 18-year-olds and one without — and let the lawyers decide which list they want to use.

I suppose that if an 18-year-old student is called for jury duty the schools will have to give them an excused absence.

What a lot of people failed to realize when all the fuss started to lower the voting age was that 21 was not just an age someone had picked out of thin air and decided that that would be a good age to let people start voting. It was set at this age because a lot of other things happen at the age of 21.

Now the question will be should the age of maturity be lowered to 18 because of the right to vote at that age or should it be left at 21?

One interesting sidelight — since an 18-year-old cannot sign a contract they cannot own property and therefore do not pay taxes but can vote in a bond election.

As usual you cannot second guess the legislature. Since the new state sales tax is 5 percent I figured that any sale under a dime was not taxable and thought that our subscription price of \$5.00 going out of the area would not be taxed as it figures out a little less than 10 cents per copy. Now I find that the legislature wrote into the law that anything over nine cents would be taxed.

So our \$4.00 subscriptions in the area are tax free but we must charge 25 cents tax on the \$5.00 ones.

WEIGHT ROOM ACTIVITIES — Girls take turns doing various exercises on the weight machine at Hamlin High School during the summer recreation program conducted by Coach Deane Wright. Here the older girls supervise the younger girls in proper use of the equipment.

Over 70 Youngsters Taking Part In Recreational Program

Over 70 youngsters have signed up for the summer recreational program being conducted at the high school, according to Coach Deane Wright, director of the program.

Coach Wright said that there are 33 girls and 39 boys signed up for the month long program and the average attendance is about 65.

The youngsters are divided into groups, with group leaders, with each group taking part in various activities during half hour periods. The session runs from 9 a.m. until noon, Monday through Friday during the month of July.

Among the activities in the program are trampoline, basketball, volleyball, football, weights, ping pong, tennis, tumbling, wrestling and badminton. Coach Wright, who is working alone on the program with the help of some of the older youngsters, said that the biggest problem seems to be activities for the girls. He said that he would like to find someone that could teach twirling to the younger girls.

The program is a voluntary

one being conducted by Coach Wright with the school system furnishing the facilities.

Girls taking part in the program are: Gina Wright, Dee Dee Eaton and Elaine Wade, six-year-olds; Mindy Smith, Lisa Caffey, Cheryl Scifres, Leanne Wade and Judy Crouch, seven-year-olds; Leashia Eaton, eight; Jessica Hernandez, Diane Young, Jan Carl Jackson and Jodi Edminston, nine-year-olds.

Rita Hernandez, Linda White, Leah Johnston, Diane Jay, Barbara Johnson, Audrey Hart and Jamie Jones, ten-year-olds; Cindy White, Alice Lujan, Rhonda Hart, Jan Ford, and Debi Cary, twelve-year-olds; Melissa Madden, thirteen; Cheryl Lewis and Debra St. Clair, fourteen-year-olds; and Cindy Witt, fifteen.

Boys in the program are: Greg Young, Curtis Jay and Calvin Stewart, six-year-olds; Van Hale and Joebob Carter,

seven-year-olds; Carl David Wade, Willie Johnson, Mike Davis, Mark Young, Steven Roth and Darrell Hart, eight-year-olds; Joe Dan Smith, Mark Caffey, Claud Scifres, and Russell Crowley, nine-year-olds; Jimmy Lujan, Carl Shearer, Lynn Davis, and Able Silva, ten-year-olds.

Nickey Bond, Wayne Wheat, Dean Hernandez, Lester Stewart, Greg Bessire and Marvin Williams, eleven-year-olds; Alan Steele, Edwin Wheat, Paul Reynolds, Jeffrey Witt, Allen Young, Patrick Harper and Ronald Crouch, twelve-year-olds; Ricky Bond, Rick Craig, and Randy Wright, thirteen-year-olds; Luke Reynolds, Ray Scifres, Dennis Gillespie, and Steve Evans, fourteen-year-olds.

Any other youngsters interested in taking part in the summer program are urged to be at the high school practice gymnasium at 9 a.m. to sign up.

Six Hamlin FFA Members To Receive State Awards

Six members of the Hamlin Future Farmers of America Chapter will be honored tonight at the State Convention of the Texas FFA Association. The convention is being held this week at the Sam Houston Coliseum in Houston. The awards will be presented to Davis Weaver, Mark Madden, Kenneth Payne, Carlos Gonzalez, Oscar Guerra, and Rodney Rackley during a special awards program.

Davis, the son of Mr. and Mrs. Irby Weaver and a student at Tarleton State College, will be recognized as the Star American Farmer from Area II and will receive the Crop Farming agricultural proficiency award on the state level. Davis has been active in FFA work for five years and farms 275 acres in cotton, milo, and wheat. He is an agricultural education major at college.

Mark, a 1971 Hamlin High School graduate and the son of Mr. and Mrs. Lewis Madden, is the state winner of the Agricultural Electrification proficiency award. Mark's work with electricity during high school earned him this award. He is also the first alternate for a \$1,000 college scholarship sponsored by the investor owned electric utilities of Texas.

Kenneth, an HHS junior and the son of Mr. and Mrs. Elbert Payne, will receive the Fish and Wildlife Management proficiency award.

These three Hamlin FFA members will now represent Texas in competition in the Southern Region. All their

awards are part of the National FFA Foundation Awards Program.

Carlos, Oscar, and Rodney will receive their Lone Star Farmer Degrees, the highest degree conferred upon members by the Texas FFA Association.

Rodney, son of Mr. and Mrs. O. L. Rackley, is president of the Hamlin FFA Chapter. He has served as chapter reporter and district president and on various leadership, judging, and public speaking teams. He is also active in Student Council and National Honor Society work.

Oscar, the son of Mr. and Mrs. Chano Guerra, is chapter vice-president and vice president of the Hamlin High School Student Council. He has also served on both leadership and judging teams.

Carlos is the son of Mr. and Mrs. Eugene Gonzalez. He is the first runner-up Star Lone Star Farmer for Area II and is currently serving as chapter secretary. Carlos has served on leadership and judging teams and has been named chapter and district Star Green Hand and Chapter Farmer.

Other members attending the convention are Johnny Howard, Larry Jayroe, Rickey Gruben and David Thompson. Also attending are Mr. and Mrs. Lewis Madden and Milburn Wink, chapter advisor. Area-Wide Crusade for Christ to Start Sunday

A city-wide prayer meeting and a door to door blitz by the youth of Hamlin tonight (Thursday) and other activities Saturday will be the final steps in preparation for the Hamlin Area Crusade to get underway Sunday evening.

Services will be held twice daily in the week-long "Crusade for Christ," with morning services at 10 in the high school cafeteria and evening services at 8 in the football stadium.

Evangelist Clifford Mayo of Lubbock, a widely known evangelist, will conduct the campaign. Working with him will be Paul J. Eby, who will direct the crusade choir, Jerry Anderson, pianist; and Miss Ann Mayo, who will play the bass violin and organ.

All young people interested in helping with the door to door blitz are to meet at 6 p.m. tonight (Thursday) for assignments and partners. The youth will conduct the door to door blitz of the city witnessing and visiting for the Crusade, says Rev. Harold Fleming, general Crusade chairman.

Saturday morning, July 17, a blitz of the business section will be from 8:30 to 11. Also planned Saturday will be a Demonstration Drive for Christ. They will assemble at 12:30 p.m. at the corner of Southeast Ave. C and Tenth Street near the gin and at 1 p.m. will ride through out the city singing and advertising the area-wide Crusade.

The city-wide prayer meeting tonight will be held at 7:30 in the chapel of First Baptist Church.

Rev. Howard J. Jones, prayer chairman for the Crusade, said attendance at the prayer service is expected from all nine of the sponsoring churches and the meeting is open to the public.

Care for children to age four will be provided by the church, Rev. Jones said.

Evangelist Mayo has conducted campaigns over most of the United States, Mexico, Africa, Jordan, Israel and Guatemala. He has conducted many area-wide youth crusades with numerous denominations participating.

He is a graduate of Texas Tech and Texas and Asbury Theological Seminary in Wilmore, Ky. He completed one

year as a home missionary for Latin Americans and six years pastoring before entering the field of full-time evangelism.

Eby, of Nashville, Tenn., will be the director of the Crusade Choir. His wife will be working with him as organist.

Miss Mayo of Lubbock, daughter of the evangelist, formerly sang and played the bass with the Soul Searchers, a gospel choir team with a strong evangelistic emphasis.

Anderson, of Lubbock, also traveled with The Soul Searchers.

More recently, he traveled with The Gospel Team of Bethany Nazarene College, as their organist. He played with the Lubbock Symphony Orchestra while in high school.

A nursery for all children up to four years of age will be provided at the First Baptist Church during the Crusade services.

Evangelist Mayo will be bringing the morning messages for the First United Methodist Church July 18 and the First Baptist Church July 25.

Special Gospel Concert Planned Friday Evening

A special gospel concert featuring the Crosby Brothers of Goltswaite and the Youth Choir of North Central Baptist Church will be held at 8 p.m. Friday in the high school cafeteria. The announcement of the concert was made by Joe Murff, a layman of the First United Methodist Church and Robert Bailey, music and youth director of North Central Baptist Church.

The Crosby brothers are the four oldest boys of a family of 10 children. They are Thomas, 16, David, 18, Timothy, 19, and Daniel, 15. These four boys have become, for many persons, symbols of that segment of the younger generation who have found the answer to life and happiness, Bailey said. Their answer, he continued, "and the only real answer to be found, is Jesus Christ himself."

Parents of the children, seven boys and three girls, are Rev. and Mrs. Russell Crosby.

The quartet, although they have been appearing across the

state with piano accompaniment are now appearing with their own guitar accompaniment or sing a cappella. They have a record out, released by Word Music Co.

The sponsors for the program are the North Central Baptist Church youth choir.

No admission is charged but a special offering will be taken to pay for expenses of the visiting group. The balance of the offering will go toward a mission trip planned by the Youth Choir to Old Mexico later this summer.

The public is cordially invited.

Members of the Youth choir are Debi Meyner, Debbie Hix, Frank Meyner, Melissa Madden, Larry Jayroe, Vanda Woolf, Tweety Starr, Danny Hix, Linda Walden, Stacy Brown, Yvonne Castle, Terry Neal, and Reba Carter of Rotan, pianist.

The Choir represents five Hamlin churches and is under the direction of Bailey.

TO APPEAR HERE FRIDAY NIGHT — The four oldest children of the Russell Crosby family will be presented here Friday evening in a special gospel concert at the Hamlin High School Cafeteria at 8 p.m. The quartet is pictured with a younger brother, Jonathan, left, and Woody Woodrome, pianist, (who will not accompany the group on this trip). The quartet includes, from left, Thomas, David, Timothy and Daniel. Also appearing on the program will be members of the North Central Baptist Church Youth Choir, under the direction of Robert Bailey.

FROM THE FILES . . .

FORTY FIVE YEARS AGO
(July 23, 1926)

The Herald would call your attention to the New City Ordinance regulating the parking of autos on the Main Street of Hamlin. It appears in this issue of the Herald and we call your attention to it that you may lene your approval and co-operation to put the regulations into successful effect.

The Herald has made complete arrangements to have the Texas Election Bureau send us the returns Saturday night. This service has been made possible by the united efforts of the business men of Hamlin. Hardly anyone refused to contribute towards this fund. They realize that hundreds of people from the surrounding country will want to hear the early returns and Hamlin could not disappoint them in this.

The board will likely be placed where it was two years ago by the telegraph office and this will make it about midway for all business houses.

The side street will be reserved for standing room. Our information is that we will begin getting telegrams about seven o'clock and they will continue till nearly midnight. At that time we should know pretty well the standing of all State candidates. City Marshall Johnson has arranged that there will be no blocking of the Main Street by autos and will have a fair show to see and enjoy the fun.

Tuesday the oil well that has been digging for three or four months, hit the pay and flowed 32 barrels in 28 minutes. This well is just two miles from the Penick Dam and is just over the line in Shackelford county, and is three miles from Lueders. Information is that they have capped the well and are preparing for storage and the drillers estimate that the well will settle down to about 700 gallons.

TWENTY YEARS AGO
(July 13, 1951)

Semi-monthly gathering of the Jones County Singing Convention will be held Sunday afternoon at the Dovie Church, beginning at 2:00 o'clock in the afternoon.

Special numbers as well as the usual group singing will be featured at the meeting, according to Sam White of Stamford, secretary of the convention. The public is invited and encouraged to attend.

There was no shortage of water for Hamlin business institutions over a two-block radius Friday morning, except for the fact that it was running in the street rather than through the

mains.

A driver for the Combs Truck Line Houston, tried to cut too close a corner when emerging from the alley at the rear of the Hamlin Motor Company and the fire hydrant was knocked from its moorings. Water service to stores in that vicinity was stopped and the beauty shops and barbers shops halted operations right there.

Tempers flared at cancelled appointments and fountain service at the drug stores was continued only through use of an emergency container that was at hand.

The truck driver was assessed a fee to defray the cost of replacement of the hydrant and service was resumed later in the afternoon.

L. Bragdon, inspector for the United States post office department has been in Hamlin the early part of this week in the interests of his department. Bragdon is interviewing bidders relative to the leasing of larger quarters for the local office.

TEN YEARS AGO
(July 20, 1961)

An expanded Jones County Fair, including two new exhibit divisions, a queen and talent show contest and possibly a horse show, has been approved by directors.

Dates for the third annual event are August 25-26.

The contest to select a sweetheart of this year's fair will be staged on the fair grounds open to the entire county. Directors hope that at least one candidate will be nominated from each community.

As part of the entertainment provided fair goes this year, a home talent variety show will be included this year with cash awards offered the first, second and third place winners in two divisions. One division will be open to boys and girls and including teenagers; and the other to adults, including amateur radio and TV entertainers.

Livestock exhibits to be added, upon recommendation of the vocational agriculture teachers at a recent meeting, are breeding poultry and breeding rabbits.

It was announced this week that free diving instructions will be given at the swimming Pool Thursday night by Tommy Bond from 6 until 8 p.m.

This is the regular family night at the pool and Mrs. John Johnson, manager, states that everyone is invited to come and bring the whole family.

The Hamlin Jaycees will sponsor an Amateur Rodeo here August 10.

NEEDED — TIME FOR MEDITATION

Every working Mother and housewife will admit that there is never enough time — time for being the mother and wife she'd like to be, time for mending, time for planning well balanced meals. Certainly never enough time to meditate on God and His laws — to think on day by day happenings and consider whether or how they affect God's plan for her life.

One way for her to assure herself this time of needed meditation is to make it her habit to visit the church of her choice each Sunday. The quiet atmosphere of love and peace and prayer will restore a feeling of oneness with God and His plan, and give her strength for the work ahead.

"Be still and know that I am God". Psalms 46:10

Neinda Philosopher Has Some Advice
For New Crop of 18-Year-old Voters

Editor's note: The Neinda Philosopher on his Johnson Grass farm on Route One seems unalarmed over the new Amendment.

Dear Editor:

As everybody knows, the U.S. Constitution now says 18-year-olds can vote in any election in the country and newspaper columnist pointing out that most Presidential elections for example are won by very small majorities, sometimes by less than a million votes, says the 11 million new young voters could swing the balance anyway they choose.

Another said the youngsters who, he claimed, aren't very interested in material things, will have a widespread effect in sweeping out the old-line politicians and established institutions and leading this country in a new direction.

"They have the balance of power and can turn this country around," he said.

Herald to Be Honored By
State VA Teachers Group

AUSTIN, — The Hamlin Herald will be one of ten Texas newspapers to be honored by the Vocational Agriculture Teachers Association of Texas, Aug 4, at the Annual Summer conference, Dallas, according to Ray Seale of Shiner, president of the organization.

Selected by each of the areas of the state, the Distinguished Service Award will go to the following newspapers:

The Memphis Democrat, Memphis, Bill Combs, Editor.

The Hamlin Herald, Hamlin, Bob Craig, Editor.

Pictorial Press, Bryan, W. Fowler Moore, Editor.

The Electra Star News, Electra, Ed Bingham, Editor.

The Terrell Tribune, Terrell, Noble Welch, Editor.

The Troup Banner, Troup, E. A. Vasconcu, Editor.

The Taylor Daily Press, Taylor, Bob Mathis, Editor.

The Ennis Daily News, Ennis, Floyd Casebolt, Editor.

The Orange Leader, Orange, Bob Axelson, Editor.

The Victoria Advocate, Victoria, Morris Roberts, Editor.

Newspapers to receive the award are nominated by Vocational Agriculture Teachers in each of the fifty-three districts in Texas. After selection by the district, nominations are forwarded to the areas where committees of teachers make the final selection of the newspapers to receive the state Distinguished Service Award.

First use of the Railway suspension bridge at Niagara Falls was in 1855.

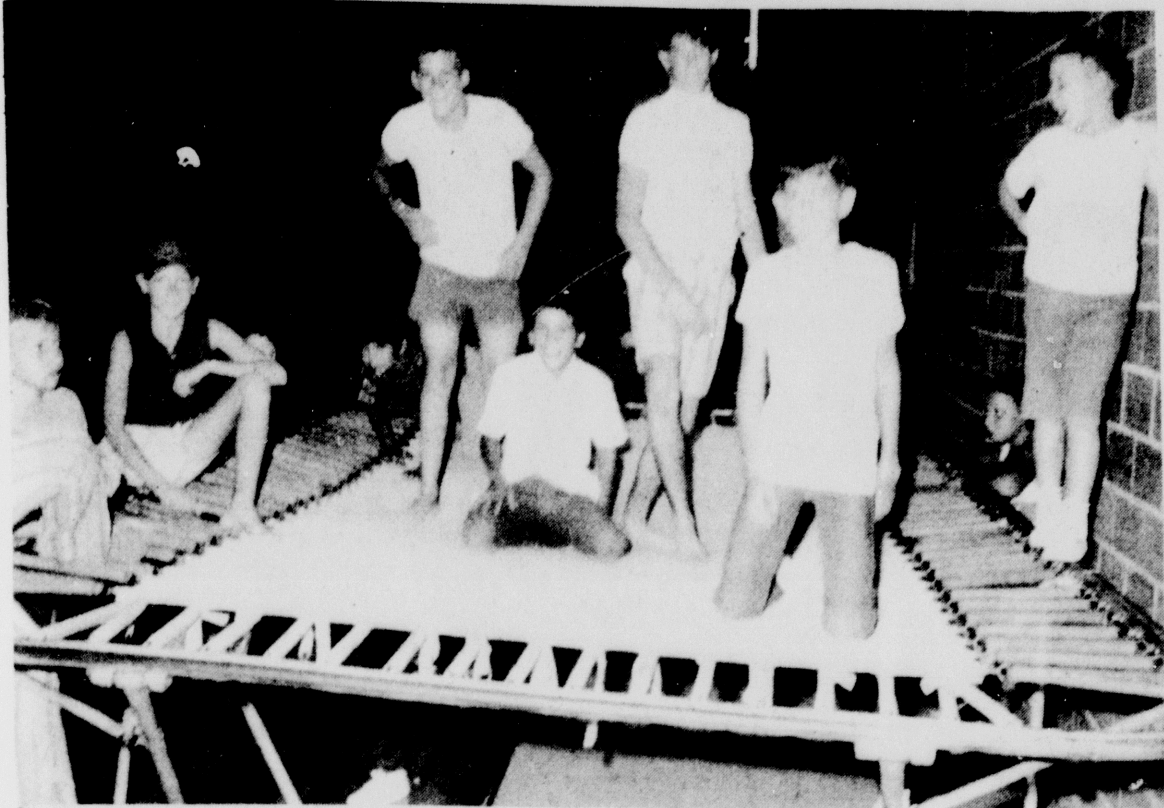

I don't know about such things, 18-year-olds may not be any more effective in changing things than women did when they got the vote, but if they all do unite and come out swinging and vote as a blow and turn this country around, my advice to them is to keep quiet about it. Don't take too much credit for it out loud.

I mean, ten or fifteen years after they reorganize the country and look up from their job of trying to raise a family and pay their taxes and discover there's a new crop of 18-year-olds telling them they've made a botch of things and it's time to turn the country around again, it's going to be embarrassing if they can't put the blame on the generation ahead of them, mainly you and me.

If they're smart, they'll just turn the country around and not say anything about it. If they let it get in the newspapers, and 15 years from now the new crop digs through the back issues and puts the responsibility on them for the mess the country may be in, they'll wish they'd thought up some way to classify the papers as Top Secret. They need to be in a position to say "We didn't make this mess, we inherited it."

By the way, speaking of Classified Top Secrets, how did Attorney General Mitchell think he could suppress news articles in a whole string of newspapers when he got his hands full trying to suppress Martha?

Yours faithfully,
J.A.

New Brides Should Contact Social Security

A June bride's list of "things to do" should include changing her name on social security records, according to social security officials here.

When she changes her name, the new bride is keeping her social security earnings record accurate and up-to-date, a spokesman said. "Any earnings she had under social security before her marriage, as well as any earnings after her marriage, can then be correctly credited to the same record," he said.

"It's her earnings record that determines the amount of her cash benefits—and not just when she retires," the social security official said. "The disability and survivors programs also provide protection for the young bride and her growing family during her working years."

He said a new bride can change her name by calling, writing, or visiting any social security office. Or, she can get a form at any Post Office and many employer personnel offices.

Student Jobs Can Affect Social Security Checks

Earnings from summer jobs may affect monthly payments for student social security beneficiaries, according to social security officials here.

Over 4 million young people collect monthly social security benefits as children of retired, disabled, or deceased workers. Many of these young beneficiaries will spend the summer school vacation working, a social security spokesman said.

"The amount students earn can have an important effect on their benefits," he said. "If total earnings for the year—including part-time and summer work—are more than \$1,680, social security benefits are reduced. But student beneficiaries can receive full benefits for any month in which they do not earn more than \$140."

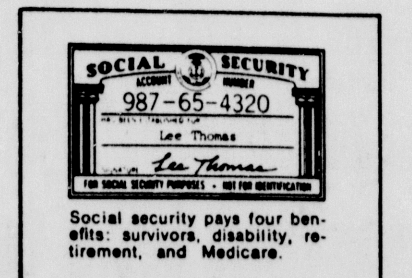

Student beneficiaries whose yearly earnings top \$1,680 will have \$1 of benefits withheld for every \$2 they earn from \$1,680 up to \$2,880. Above yearly earnings of \$2,880, \$1 in benefits is withheld for every \$1 earned.

The majority of student beneficiaries probably will

not earn over \$1,680 working only during the summer vacation, the spokesman said. "But a beneficiary's earnings could easily exceed \$1,680 if he also works part time throughout the school year."

If any student has a question about his earnings, he can call or visit his nearest social security office, the official said.

"If a student beneficiary definitely knows his earnings for this year will go over \$1,680, he should let us know as soon as possible. A year-end adjustment in social security benefits can sometimes create a financial hardship for a student," he noted.

Certification of Crop Acreage Nearly Completed for Jones County

ANSON — With the certification of crop acreage going full blast at the ASC office this past week Jones County farmers were surveying current and future prospects for the year with mixed degrees of hope and misgivings.

On the optimistic side at this mid-year point is the fact that the county's rainfall for the year is near normal, cotton is growing rapidly and early milo is only just the last few days started showing stress from summer heat and the need for additional moisture.

weevils in some cotton fields is also causing worry.

Conditions vary, depending on the nature of the soil and land preparation but generally speaking early milo is at the critical stage and rain is badly needed as heads form and the maturing stage arrives.

Cotton on the other hand is not yet hurting for moisture, and except where insect damage is heavy should continue in good growing condition for one or two weeks, or until it starts fruiting heavily before it shows stress from a moisture shortage.

Pastures and grazing conditions remain mostly fair to good, but continued extreme hot weather like that of the past weekend will soon begin to take its toll.

Worm damage in cotton is being experienced in various parts of the county, but not considered too serious in most fields. The over winter weevil

threat is mostly in the south part of the county where some spraying is already being done. Most of the worm damage is in the younger cotton that was caught in the cycle of certain insect developments.

The ASC office reported last week that the crop certification requirement has been completed for approximately half of the farms, but the office will be busy until August 1 with the acreage certification of cotton, feed grain, peanuts, and set-aside acres which must be completed for growers to qualify for farm program payments.

This year's rainfall in the Anson area, Jan. 1 through June is 14 inches compared with 12.1 in 1970 and 16.7 in 1969, according to County Agent Kirby Clayton's records.

The difference in this and the past two years is lack of underground moisture, Clayton said.

THE FAMILY LAWYER

Borderline Case

Preparing for summertime festivities, the Thompsons built a brick barbecue pit at the back end of their property. But neighbor Hanks took a dim view of the project. Checking the boundary line, he discovered that the bricks protruded several feet onto his land.

Mortified, the Thompsons offered to buy the strip of land for a fair price. But Hanks wasn't interested in money. Instead, he demanded that the structure itself be removed.

And when he carried his demand into court, the judge did order the bricks removed. The judge said Hanks could not be forced to sell a piece of his land, however small, that he chose to keep for himself.

This is the law's traditional view, when an object overlaps the boundary line onto a neighbor's property. Whether it is a barbecue pit or a gutter or a fence or a garage wall, the neighbor may usually insist on an actual physical removal — rather than having to accept money as compensation.

However, removal can be costly indeed—a real hardship on the first party. In recent years, courts have shown a growing willingness to "weigh the equities" of the situation, refusing to order a removal that is plainly unjust. Take this case:

A farmer was haled into court on the ground that the wall of his garage extended exactly one inch into a neighbor's farm. The neighbor demanded destruction of the wall; the court said no.

Noting the slightness of the intrusion, the court said:

"The law does not bother with trifles."

What if the intrusion is not by mistake but on purpose? That tilts the scales sharply in favor of the neighbor. Almost always, the court will order outright removal, regardless of the hardship it may entail.

In one case, a boundary line between two lots was in open dispute between the owners. One owner, without waiting for the dispute to be settled, went ahead and built a house on what he thought was his own land.

As it turned out later, his house extended almost four feet into the adjacent lot. Here, a court ordered him to remove the house, despite the obvious hardship. The court said he could not complain of a predicament he walked into with his eyes open.

Barnacle glue may have surgery use

A cement, unequalled in strength, which is made by a barnacle has been isolated after years of research by American research teams.

Tests show that a thin layer of the cement is four times as strong as the best wood glue. And, if produced synthetically, it could prove valuable in surgery and industry.
